INDEX TO VOLUME 18, 1953

Journal of Speech and Hearing Disorders

Abstracts (of current articles). 78-86, 210-218, 313-315, 397-400
Adaptation effect in stuttering speech behavior and normal speech behavior, The (H. B. Starbuck and M. D. Steer) 252-255
Adaptation phenomena in therapy for stuttering, A utilization of (G. H. Shames) 256-257
Adaptation to delayed side-tone (C. J. Atkinson) 386-391
Adolescents, The use of motion pictures in effecting group adjustment changes in speech handicapped (D. E. Morley and S. Berlinsky) 38-42
American Speech and Hearing Association
  Committee on Minimum Requirements for Hearing Clinics, Report of the. 110-112
  Convention
    Announcement. 115
    Formal call for papers. 3
    Program. 227-229, 406-411
    Report of council and business meetings. 94-109
  Notices to members. 319-320
  President. S. R. Silverman. 88
  Retiring President. H. Westlake. 87
Analyzing speech sounds from words, Perceptive vs. productive skills in (R. Summers) 140-148
Aphasia, A conceptual model for the processes involved in recovery from (J. M. Wepman) 4-13
  Auditory impairment in: Significance and retraining techniques (H. Schuell) 14-21
Articulation and other developmental factors in children, The relationship between (R. W. Everhart) 332-338
Articulation for ages three through eight, Norms on a screening test of (M. C. Templin) 323-331
Atkinson, C. J. Adaptation to delayed side-tone. 386-391
Audiometric testing of hearing of school children (S. M. Wishik and E. R. Kramm) 360-365
Auditory impairment in aphasia: Significance and retraining techniques (H. Schuell) 14-21
Auditory training, The response of profoundly deaf children to (C. V. Hudgins) 273-288
Auditory training unit for preschool children, A group (T. E. Bangs and J. L. Shapley) 366-372

Backus, O. and Coffman, R. Group therapy with preschool children having cerebral palsy. 350-354
Bangs, T. E. and Shapley, J. L. A group auditory training unit for preschool children. 366-372
Basic physical systems for communication between two individuals (G. E. Peterson) 116-120
Becklund, O. *See* Irwin, J. V.
Berlinsky, S. *See* Morley, D. E.
Bloomer, H. Observations on palatopharyngeal movements in speech and deglutition. 230-246
Book reviews. 71-77, 204-209, 304-312, 393-396
Buck, M. Facial skeletal measurements and tongue carriage in subjects with repaired cleft palate. 121-132
Byrne, M. C. *See* Matthews, J.

Carr, J. An investigation of the spontaneous speech sounds of five-year-old deaf-born children. 22-29
Cerebral palsy, Group therapy with preschool children having (O. Backus and R. Coffman) 350-354

Bloomer, H. Observations on palatopharyngeal movements in speech and deglutition. 230-246
Book reviews. 71-77, 204-209, 304-312, 393-396
Buck, M. Facial skeletal measurements and tongue carriage in subjects with repaired cleft palate. 121-132
Byrne, M. C. *See* Matthews, J.

Carr, J. An investigation of the spontaneous speech sounds of five-year-old deaf-born children. 22-29
Cerebral palsy, Group therapy with preschool children having (O. Backus and R. Coffman) 350-354

Children, Audiometric testing of hearing of school (S. M. Wishik and E. R. Kramm) 360-365
group auditory training unit for preschool, A (T. E. Bangs and J. L. Shapley) 366-372
investigation of the spontaneous speech sounds of five-year-old deaf-born, An (J. Carr) 22-29
relationship between articulation and other developmental factors in, The (R. W. Everhart) 332-338
Speech examination of a group of institutionalized mentally handicapped (B. B. Schlanger) 339-349
Children having cerebral palsy, Group therapy with preschool (O. Backus and R. Coffman) 350-354
Children with cleft palate, An experimental study of tongue flexibility in (J. Matthews and M. C. Byrne) 43-47
Cleft palate, An experimental study of tongue flexibility in children with (J. Matthews and M. C. Byrne) 43-47
Facial skeletal measurements and tongue carriage in subjects with (M. Buck) 121-132
Coffman, R. *See* Backus, O.
Communication between two individuals, Basic physical systems for (G. E. Peterson) 116-120
Comparative study of methods of estimating the severity of stuttering, A (R. V. Naylor) 30-37
Conceptual model for the processes involved in recovery from aphasia, A (J. M. Wepman) 4-13

Deaf children, The response of profoundly, to auditory training. (C. V. Hudgins) 273-288
Deglutition, Observations on palatopharyngeal movements in speech and (H. Bloomer) 230-246
Delayed side-tone, Adaptation to (C. J. Atkinson) 386-391
Developmental factors in children. The relationship between articulation and other (R. W. Everhart) 332-338
DiCarlo, L. M. and Gardner, E. F. Efficiency of the Massachusetts pure tone screening test as adapted for a university testing program, The. 175-182
Discrimination test, A picture-type speech sound (W. Pronovost and C. Dumbleton) 258-266
Dumbleton, C. *See* Pronovost, W.
Duration, frequency modulation and phonetic context, Vowel recognition as a function of (W. R. Tiffany) 288-301

Efficiency of the Massachusetts pure tone screening test as adapted for a university testing program, The (L. M. DiCarlo and E. F. Gardner) 175-182
Esophageal speech development, The objective measurement of progressive (J. M. Wepman, J. A. MacGahan, N. W. Shelton and J. C. Rickard) 247-251
Everhart, R. W. Relationship between articulation and other developmental factors in children, The. 332-338
Experimental study of tongue flexibility in children with cleft palate, An (J. Matthews and M. C. Byrne) 43-47
Exploration of group homogeneity in group speech therapy, An (G. H. Shames) 267-272
Eyeblink response as a test for hearing, The (R. Galambos, P. E. Rosenberg and A. Glorig) 373-378

Facial skeletal measurements and tongue carriage in subjects with repaired cleft palate (M. Buck) 121-132
Frequency modulation, duration, and phonetic context, Vowel recognition as a function of (W. R. Tiffany) 288-301

Galambos, R., Rosenberg, P. E. and Glorig A. The eyeblink response as a test for hearing. 373-378
Gardner, E. F. *See* DiCarlo, L. M.
Glasner, P. J. and Vermilyea, F. D. Investigation of the definition and use of the diagnosis, 'primary stuttering.' 161-167
Glorig, A. *See* Galambos, R.
Graduate theses in speech and hearing disorders—1951 (F. H. Knower) 54-62

Group adjustment changes, The use of motion pictures in effecting, in speech handicapped adolescents (D. E. Morley and S. Berlinsky) 38-42
Group homogeneity in group speech therapy, An exploration of (G. H. Shames) 267-272
Group therapy with preschool children having cerebral palsy (O. Backus and R. Coffman) 350-354

Hearing aids, Minimum requirements for hearing programs offering guidance in selection of. 110-112
Hearing of school children, Audiometric testing of (S. M. Wishik and F. R. Kramm) 360-365
Hearing programs offering guidance in selection of hearing aids, Minimum requirements for. 110-112
Hearing, The eyeblink response as a test for (R. Galambos, P. E. Rosenberg and A. Glorig) 373-378
Historical notes on speech correction in the pre-association era (P. Moore and D. G. Kester) 48-53
Hudgins, C. V. The response of profoundly deaf children to acoustic training. 272-288

Index to Volume 18, *Journal of Speech and Hearing Disorders.* 412-416
Indians who stutter, Some (E. M. Lemert) 168-174
Infants, A study of word approximations in the spontaneous speech of (W. H. McCurry and O. C. Irwin) 133-139
Investigation of the definition and use of the diagnosis, 'primary stuttering.' (P. J. Glasner and F. D. Vermilyea) 161-167
Investigation of the spontaneous speech sounds of five-year-old deaf-born children, An (J. Carr) 22-29
Irwin, J. V. and Becklund, O. Norms for maximum repetitive rates for certain sounds established with the sylrater. 149-160
Irwin, O. C. *See* McCurry, W. H.

Kester, D. G. *See* Moore, P.
Knower, F. H. Graduate theses in speech and hearing disorders—1951. 54-62

Lemert, E. M. Some Indians who stutter. 168-174
Letters to the editor. 63-70, 183-203, 302-303, 392

MacGahan, J. A. *See* Wepman, J. M.
Massachusetts pure tone screening test as adapted for a university testing program, The efficiency of (L. M. DiCarlo and E. F. Gardner) 175-182
Matthews, J. and Byrne, M. C. An experimental study of tongue flexibility in children with cleft palate. 43-47
McCurry, W. H. and Irwin, O. C. A study of word approximations in the spontaneous speech of infants. 133-139.
Mentally handicapped children, Speech examination of a group of institutionalized (B. B. Schlanger) 339-349
Minimum requirements for hearing programs offering guidance in selection of hearing aids. 110-112
Moore, P. and Kester, D. G. Historical notes on speech correction in the pre-association era. 48-53
Morley, D. E. and Berlinsky, S. The use of motion pictures in effecting group adjustment changes in speech handicapped adolescents. 38-42
Motion pictures, The use of, in effecting group adjustment changes in speech handicapped adolescents. 38-42

Naylor, R. V. A comparative study of methods of estimating the severity of stuttering. 30-37
News and announcements. 89-93, 219-224, 316-318, 401-405
Norms for maximum repetitive rates for certain sounds established with the sylrater (J. V. Irwin and O. Becklund) 149-160
Norms on a screening test of articulation for ages three through eight (M. C. Templin) 323-331

Observations on palatopharyngeal movements in speech and deglutition (H. Bloomer) 230-246

Palatopharyngeal movements in speech and deglutition, Observations on (H. Bloomer) 230-246
Perceptive vs. productive skills in analyzing speech sounds from words (R. Summers) 140-148
Peterson, G. E. Basic physical systems for communication between two individuals. 116-120
Phonetic context, Vowel recognition as a function of duration, frequency modulation and (W. R. Tiffany) 288-301
Picture-type speech sound discrimination test, A (W. Pronovost and C. Dumbleton) 258-266
Possibilities of research for public school speech therapists (M. C. Templin) 355-359
Pre-association era, Historical notes on speech correction in the (P. Moore and D. G. Kester) 48-53
Progressive nature of esophageal speech development and its objective measurement, The (J. M. Wepman, J. A. MacGahan, J. C. Rickard and N. W. Shelton) 247-251
Pronovost, W. and Dumbleton, C. A picture-type speech sound discrimination test. 258-266

Relationship between articulation and other developmental factors in children, The (R. W. Everhart) 332-338
Repetitive rates for certain sounds, Norms for maximum, established with the sylrater (J. V. Irwin and O. Becklund) 149-160
Research for public school speech therapists, Possibilities of (M. C. Templin) 355-359
Response of profoundly deaf children to acoustic training, The (C. V. Hudgins) 273-288
